**Embossment**

The cutlery is embossed and then the reverse side is repolished to create a perfect finish. This method of personalisation is suitable for simple logos.

The minimum order quantity is 600 pieces spread across any number of shapes in the Eternum range that you select.

**Etching**

This method of personalisation can reproduce complex logos, the detail would only have to be simplified if elements became illegible due to the size that was required for the item. Etching provides very sharp definition with a black appearance.

The minimum order quantity for this is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Laser & Diamond Engraving**

This method of personalisation produces exact replicas of logos, except for highly intricate designs.

The minimum order quantity for this style of personalisation is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Be individual with coloured cutlery**

Any of the Eternum collections can be PVD coated in your choice of Gold, Bronze or Anthracite colours. The coating is Food Safe and is scratch resistant.

With a minimum order quantity of 480 pieces spread across any number of shapes in a range, this option is accessible to all.
