THE SOURCE FOR THE HOSPITALITY INDUSTRY

utopia

# introduction

With innovation at the core of the business, we are the market leader in the industry and are renowned for exceptional service, unrivalled range and the best value.

SIMPLY INSPIRED SERVICE

## TABLEWARE

We offer an extensive range of tableware designed for the Hospitality market with a significant emphasis on new product development and creative food presentation.

## GLASSWARE

We are the market leading glass specialist delivering the most innovation with a range covering every market need; our expertise covers every aspect of glassware with a specialisation in toughened glass and decoration.

## CUTLERY

We are the UK's market leader in cutlery with an extensive collection covering all market needs from traditional to the latest contemporary designs.

## BARWARE

Developed with the mixologist in mind, our barware adds theatre, creativity and flair along with an array classic essentials including straws and skewers.

## FOODSERVICE EQUIPMENT

A range of practical food service equipment essentials delivering quality, functionality and exceptional value.

## PLASTIC

We have a comprehensive range of polycarbonate solutions focussed on quality, style and creativity.

A selection of our partners are:

# Looking Forward

Utopia have been at the forefront of innovation since our beginnings over 20 years ago. This year is no different, considering the turbulence we have all experienced across the Hospitality Industry we are looking forward and evolving to continue to lead in the market. With that in mind we have looked at how we work with not against the massive supply chain and global logistics problems facing our industry and the world. From this we have diversified our sources to look closer to home, so controlling the logistics is easier and shipping is faster. Our industry relies on stability of supply and so with our new products we are looking forward to new sources to make sure the stability Utopia is known for continues. We will of course, continue to offer products from all areas of the world, including those sourced from the Far East. These are high quality products that deserve their place in the hospitality market, but due to the current problems with global shipping we felt we had to offer our customers an alternative.

Connected to this is our continued focus on e-commerce and automatization, making the Utopia experience as seamless as possible. From product discovery, through to ordering and delivery we are constantly working on ways to improve service allowing us to react faster and provide unparalleled efficiency in our market.

Our promise of having innovation at the core of our business continues, and we are looking forward to the year ahead.

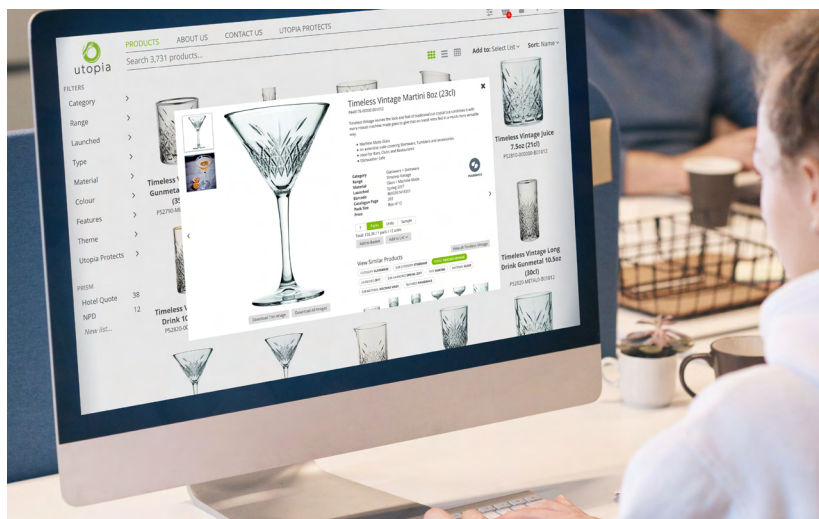

We hold in excess of 30,000 pallets under one roof, preventing double handling of goods and giving constant visibility of all stock using our state of the art warehouse management system.

15 dock levellers mean there is no need to unload containers outside, bringing benefits in terms of speed, less product damage, and a better and cleaner working environment.

It facilitates our drive to improve customer service, increasing the speed of response, packaging integrity and picking accuracy.

It allows partner distributors to expand their businesses with our range of original and stylish products.

Our online platform has a host of features to make our customers' lives easier. From detailed product information and downloads to bespoke catalogue and quote creations. We offer end to end ordering, all your important financial and order documents all in one place and API connectivity to your website. It is a constant area of innovation to give our customers the best possible service.

Utopia prides itself on having two exquisitely presented showrooms in Chesterfield and London, both home to our full collection of tableware. Chesterfield is the home of our flagship showroom. This is mirrored with our central London showroom in the heart of Holborn. Our showrooms are built with distributor partners and end users in mind, and are designed to inspire

and excite. Showroom viewings are by appointment only - to make an appointment to view one of our showrooms, contact us today.

We supply the market by understanding it better than anyone else, we work hard to make sure that we have the right products for the right task in every situation.

Simply Inspired Service.

# DECORATION

We aim to provide best in class decorating and give our customers infinite possibilities through our state of the art processes. Our Utopia By You division offers expertise to help design, process and deliver your decoration needs. We are excited for you to experience the possibilities that Utopia By You can give you.

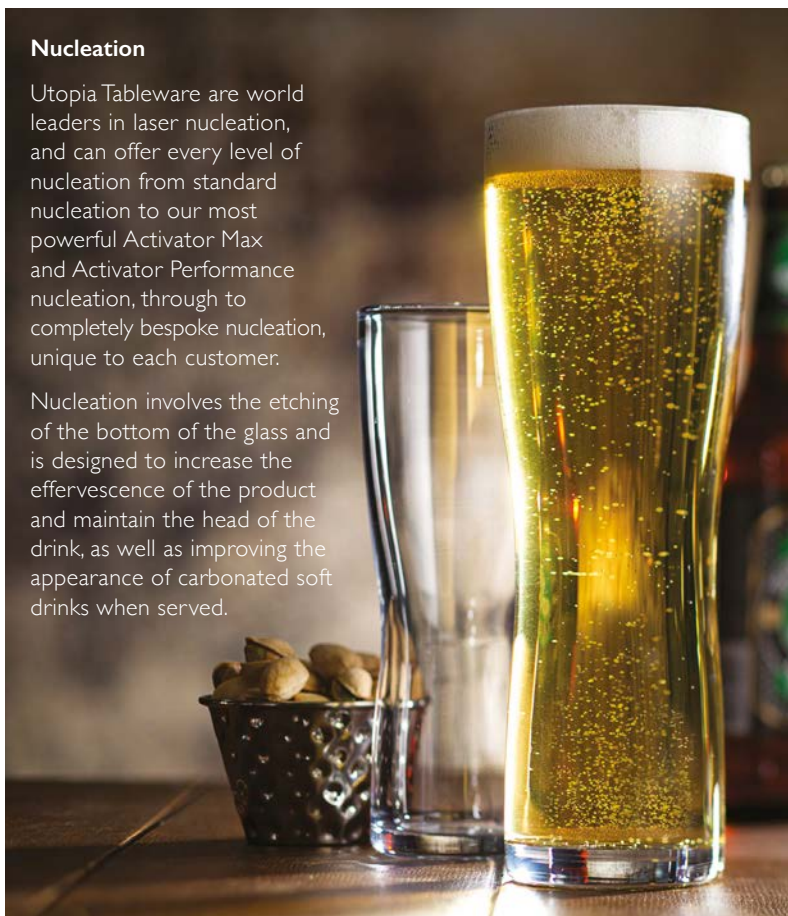

# CAPABILITIES

## Nucleation

Utopia Tableware are world leaders in laser nucleation, and can offer every level of nucleation from standard nucleation to our most powerful Activator Max and Activator Performance nucleation, through to completely bespoke nucleation, unique to each customer.

Nucleation involves the etching of the bottom of the glass and is designed to increase the effervescence of the product and maintain the head of the drink, as well as improving the appearance of carbonated soft drinks when served.

## Bespoke Shape & Design

We understand the need for bespoke items and offer a full bespoke product service. Utopia will design, re-design and re-envision until we have it absolutely right. We take care over practicality and ergonomics as well as aesthetics working closely with the customer every step of the way. We then manage the manufacturing process closely with our suppliers, inspecting and controlling the products we produce. Utopia nurtures every bespoke request from initial idea, to shape and style, all the way through to the end product, delivering satisfaction every time.

Designs for both glass and ceramics can be made by our design team from a brief, or artwork can be supplied for us to work with. Minimum orders are required on most decorations.

## Toughened Glass

Fully Toughened Glassware has been strengthened across its entire body making the glass resistant to impact damage at all points. This makes the glass stronger than regular annealed glass. When Toughened Glass does finally break, it will break into small fragments making it impossible to cause serious lacerations. This makes Fully Toughened Glassware the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

## Laser Lining and UKCA - CE Stamping

Utopia has in-house verification status, meaning we can government stamp and line our glassware, satisfying all UK and European legal hospitality requirements. Choose lined glassware instead of additional measures, with different options available and with low volume commitment, we can produce to all your required needs.

## ICON GUIDE

This key to our icons will help you identify them as you use our catalogue, and select the right product for you.

**NEW FOR 2022**  
Look out for our new products being launched for 2022

**CRYSTAL**  
A selection of Utopia's glassware ranges are made from fine crystal giving clarity and finer rims.

**PASABAHCHE PRODUCT**  
Many of our glassware ranges are from our exclusive supply partner Pasabahce, these glassware items offer exceptional quality and design.

**ACTIVATOR MAX**  
A laser nucleation technology to further enhance the appearance of carbonated drinks.

**STACKING**  
Items that are designed to stack when space is at a premium.

**TOUGHENED RIM**  
Many Utopia Glassware items have strengthened rims to reduce chipping and breakage.

**POLYCARBONATE**  
Polycarbonate is a very strong and virtually unbreakable plastic, the strongest plastic of all.

**5YR EDGE CHIPPING GUARANTEE**  
Utopia's 5 year edge chipping guarantee on a selection of ceramic products allows for free of charge replacement of chipped products.

**RIM AND FOOT GUARANTEE**  
Utopia's rim & foot guarantee on a selection of products allows for free of charge replacement of breakages to the rim or foot of glassware.

**POLYSTYRENE**  
Not as strong as Polycarbonate, Polystyrene items are often used for shot glasses where strength is not as important.

**CUTLERY PERSONALISATION**  
Eternum cutlery can be personalised through colour coating, stamping, etching, laser engraving and diamond engraving.

**100% RECYCLED**  
Made from 100% Recycled Glass.

**SAN**  
Styreneacrylonitrile is stronger than polystyrene and can take a high amount of usage but will break under heavy pressure.

**UMAMI**  
Japanese Artisan Tableware

**TOUGHENED GLASS**  
Fully toughened glassware withstands greater impact, making the glass stronger therefore increasing longevity, when it finally does break it will break into small blunt pieces increasing safety. Ideal for outlets with glass related violence or those with specific license stipulations.

**LINED & UKCA**  
Many of our glassware items can be government stamped and lined to satisfy all European and UK legal hospitality requirements. As the UK is no longer a member of the EU the certification stamp used within the UK has changed from CE to UKCA. Existing CE stock can continue to be used for the life of the glass

**EN13432 ACCREDITATION**  
This icon denotes that the straw has EN12432 accreditation. This certification focusses on compost-ability, making sure Utopia's non-metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment.

# UMAMI

JAPANESE  
ARTISAN

## UMAMI

Our "Umami" collection is infused with the true spirit of the East, sourced from an abundance of Japanese pottery producers, we have brought together a collection rich in heritage and authenticity. The ranges sourced are individually crafted to produce items that can be

used for traditional oriental serves or to add depth and texture to more contemporary dishes.

Look out for the Umami logo throughout our tableware section for these exclusively crafted ranges.

# 01 tableware

We offer an extensive range of tableware designed for the Hospitality market with a significant emphasis on new product development and creative food presentation.

Included in this section are  
the following:

Murra  
Coloured Tableware  
Anton Black Fine China  
Titan  
Pure White  
Melamine Tableware & Buffetware

NMC

# murra

As the world changes Utopia have taken steps to overcome the difficulties that can occur when sourcing from the Far East by moving production much closer to home, alleviating long lead times and reducing the carbon footprint in the process. The Murra collection will be the first of our launches to take advantage of this move. This new collection is part of our new partnership with NMC, a unique international sourcing platform that works to find the best quality products at the most effective price points as an alternative to traditional Far East sources.

Murra references the luxurious ceramic vessels created using semi-precious materials by the artisans of ancient Rome. With twenty five items in each of the five colourways it's never been easier to personalise the presentation of food and bring individuality to any venue. Manufactured from Vitrified Porcelain to withstand daily use and hand-finished with glorious reactive glazes, each item is truly unique.

- **CT8124** 6" (15cm) Green Box of 6
- **CT8125** 6" (15cm) Black Box of 6
- **CT8134** 6" (15cm) Brown Box of 6
- **CT8143** 6" (15cm) Red Box of 6
- **CT8152** 6" (15cm) Cream Box of 6  
Fits Latte Cup

# CAPPUCCINO CUP

For perfect aesthetics, the volume of the drink and the cup must match. Like espresso the narrower base helps concentrate the flavour.

### Barista Cappuccino Cup

- CT8091 7oz (20cl) White Box of 12
- CT8092 7oz (20cl) Grey Box of 12
- CT8093 7oz (20cl) Blue Box of 12
- CT8094 7oz (20cl) Green Box of 12
- CT8095 7oz (20cl) Black Box of 12
- CT8128 7oz (20cl) Brown Box of 12
- CT8137 7oz (20cl) Red Box of 12
- CT8146 7oz (20cl) Cream Box of 12

### Barista Medium Saucer

- CT8116 5.5" (14cm) White Box of 12
  - CT8117 5.5" (14cm) Grey Box of 12
  - CT8118 5.5" (14cm) Blue Box of 12
  - CT8119 5.5" (14cm) Green Box of 12
  - CT8120 5.5" (14cm) Black Box of 12
  - CT8133 5.5" (14cm) Brown Box of 12
  - CT8142 5.5" (14cm) Red Box of 12
  - CT8151 5.5" (14cm) Cream Box of 12
- Fits Cappuccino Cup

# TULIP CUP

Perfect for americano serves, longer filter coffee and speciality tea serves. The shape brings the flavour through the cup but the compact structure keeps the temperature locked in. The taller profile holds the crema for perfect presentation

## Barista Tulip Cup

- CT8101 6.25oz (18cl) White Box of 12
- CT8102 6.25oz (18cl) Grey Box of 12
- CT8103 6.25oz (18cl) Blue Box of 12
- CT8104 6.25oz (18cl) Green Box of 12
- CT8105 6.25oz (18cl) Black Box of 12
- CT8130 6.25oz (18cl) Brown Box of 12

# titan

The Titan collection has been created to offer practical and durable solutions without compromising superb presentation.

A comprehensive range of SuperVitrified Porcelain Hotelware has been designed to cover all of the market's requirements from dining through to service and oven to tableware.

Produced using the finest of raw materials, Titan fully conforms to British Hotelware Standard BS4034, which demands the highest standards of strength and water absorption resistance.

Walled Plates add a pared back, contemporary feel to any serve. These **Titan** plates stack beautifully making them as practical as they are appealing.

# pure white

Pure White is a range of fully vitrified economy porcelain, developed in recognition of the market's need for a cost effective tableware collection.

The range is accredited with British Hotelware Standard BS4034, demonstrating a high resistance to water absorption, fully microwave and dishwasher safe and designed to withstand the rigours of any catering environment.

# DISCOVERY & DARWIN

**Discovery Acacia Board**  
JMP051 12" (30.5cm) Box of 26

**Darwin Acacia Board**  
JMP056 11.75" (30cm) Box of 6

**Darwin Acacia Board**  
JMP055 7.5" (20cm) Box of 6

**Discovery Double Handled Acacia Board**  
JMP050 24.5" (62cm) Box of 6

Our Discovery & Darwin boards have a rustic, authentic and raw feel about them, with some of the boards displaying a rope tie for added texture and offering a practical use. The boards are cut from one piece of wood, making them extremely strong with no chance of splitting.

# ACACIA WOOD

This board has a juice well running around one face making this a perfect way to serve juicy steaks. The reverse side is completely flat making an ideal cheese board or serving platter.

# CANDLE- HOLDERS

# melamine tableware & buffetware

Melamine has the look and feel of ceramic tableware but without the weight and potential breakages, making it perfect for large-scale, outdoor or institutional catering environments. Chip resistant and virtually unbreakable, our collection offers a hygienic and cost effective solution without compromising on style.

Our featured ranges:  
Calypso P 208  
Pebble Platters P 210

# CALYPSO

**Table Fork F00121**

**Dessert Spoon F00122**

**Tea spoon F00123**

**Steak Knife F00124**

**Embossment**

The cutlery is embossed and then the reverse side is repolished to create a perfect finish. This method of personalisation is suitable for simple logos.

The minimum order quantity is 600 pieces spread across any number of shapes in the Eternum range that you select.

**Etching**

This method of personalisation can reproduce complex logos, the detail would only have to be simplified if elements became illegible due to the size that was required for the item. Etching provides very sharp definition with a black appearance.

The minimum order quantity for this is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Laser & Diamond Engraving**

This method of personalisation produces exact replicas of logos, except for highly intricate designs.

The minimum order quantity for this style of personalisation is only 480 pieces spread across any number of shapes in the Eternum range that you select.

**Be individual with coloured cutlery**

Any of the Eternum collections can be PVD coated in your choice of Gold, Bronze or Anthracite colours. The coating is Food Safe and is scratch resistant.

With a minimum order quantity of 480 pieces spread across any number of shapes in a range, this option is accessible to all.

# 03

Nude is an outstanding crystal collection that is the culmination of years of study and creation, it also includes designs from industry leaders such as Remy Savage.

Nude embraces the now and is unashamedly design led and unapologetically contemporary, offering affordable premium. Nude is built on a firm belief that design is not about embellishment or style, but about the purity in the shape of an object.

Simple is beautiful.

Included in this section are  
the following:

# NUDE & MIRAZUR

---

## THE WORLD'S NUMBER 1 RESTAURANT 2019

### AN INTERVIEW WITH 3 MICHELIN STAR CHEF MAURO COLAGRECO

#### **Why did you decide to use Nude glassware at Mirazur?**

I chose Nude glassware for its different style and also for the lightness of the glass itself. With that kind of glassware we can use one glass for the wine pairing instead of many different glasses, which can be overwhelming. It becomes like show for the client.

#### **Do you think that the quality of food and food service and the atmosphere and the aesthetics of a restaurant have a significant influence on each other?**

I believe that the gastronomic experience begins with the person's arrival at the restaurant, not just with the tasting of a dish. Each element—food, service, atmosphere and aesthetics—is part of a coherent whole that will provide a broader and richer experience for the senses and in the minds of the people who visit us. This year we have renewed the interior and we continue with work in other areas of the restaurant according to this philosophy.

#### **Does glass, as a material, have a particular meaning or beauty for you as a chef?**

Of course, glass is a very interesting material for chefs. We can give glass whatever form and colour we wish and we must use fire to do it! It's just like cooking.

#### **Where do you most often find your inspiration for the creative process of cooking?**

Inspiration is an unanticipated process, which cannot be predicted, but in my case most of the time inspiration comes from the ingredients I find in the gardens, or that I discover in the market. From there, I like to play with new combinations. I work with the organoleptic properties of the ingredients, but also I think about their origins, the history related to each ingredient, and the way we usually work with it...

#### **In 2006, how did you originally want the gastronomic experience to feel at Mirazur? What influenced or inspired you while you were creating the concept?**

Although Mirazur has evolved over time, I had the idea from the first day: I did not want to offer only dishes to customers, but a real experience. I wanted to offer a "trip" and for the customer to trust me and let himself be drawn into the experience. It is a challenge that, for me, requires great responsibility and creativity to support customers in their desire to be surprised. In a menu there is much more than ingredients. There is emotion, associations that will occur in the memory and the personal and unique universe of each person in the encounter with a smell, a colour, a texture. For me, this is "the trip".

#### **Like people, restaurants probably change naturally over the years, but Mirazur just keeps winning awards like the Best Restaurant 2019 award. What do you think has been the key to maintaining your success over time?**

The secret is to always evolve. I've never worked for the prizes, to follow the achievements of others. I work to feel free in my creations. I work to meet people and make them feel a unique moment. Not being afraid to follow your own passion is the key.

BEAUTIFULLY  
STRONG

Stem Zero 

Introducing Stem Zero made with 'Ion Shielding Technology'.  
Making it the world's toughest, yet finest lead free crystal glass.  
You could say it is beautifully strong.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favourite wine.

**It couldn't be done, surely?**

The designers at NUDE asked themselves the same question, but after a huge amount of work and dedication have come up with the answer.

**It is called... Stem Zero**

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

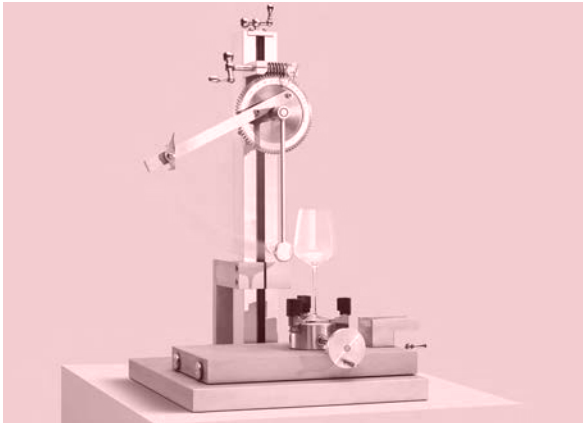

**Some look tough but are so fragile.**

**Some look fragile but tougher than any other...**

The new Stem Zero with Ion Shielding Technology reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

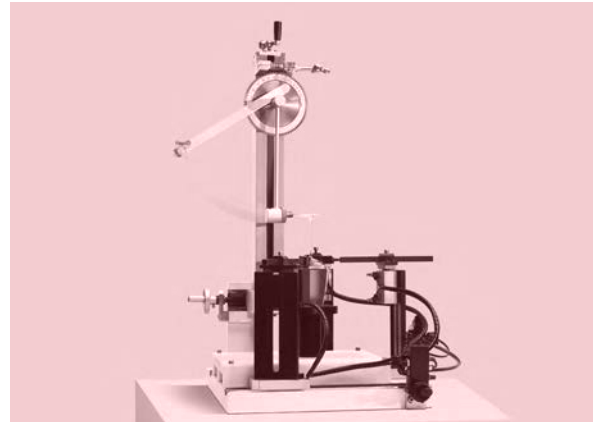

# TECHNOLOGY

## Bowl Impact Test

**35% stronger**

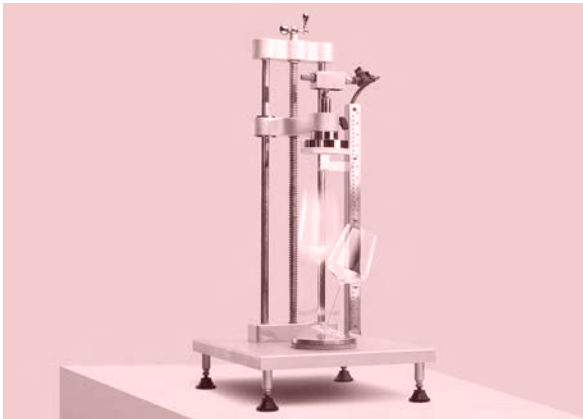

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Stem Impact Test

**2x stronger**

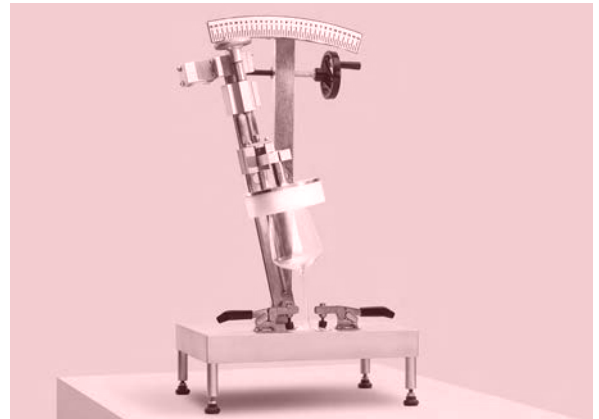

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Free Fall Test

(In-house method):

Glass is released for a free fall from the height of 28 cm.

## Bending Test

(In house method): Up to 130

Glass is bent at a certain angle from the top of the bowl keeping the stem fixed.

## Dishwasher Safety Test Up to 2.000 cycles

DIN 10511 "commercial dishwashing with glass washing machines - hygiene requirements, type testing" Water hardness: 0-1 dH Temperature of detergent tank: 55 0C. Temperature of rinse agent: 65 0C. Contact time per cycle: 120s. Detergent: Industrial type, pH < 12,6.

## MANA: MANCHESTER'S FIRST MICHELIN STAR RESTAURANT SINCE 1977

"Over the years I have been fortunate to experience some of the finest wines and stemware on the planet.

Six or so months ago I discovered the Nude brand, with some stunning crystal glassware and in particular their beautiful Stem Zero stemware.

To fully appreciate the experience, the finest wines have to be tasted from the finest glass. For me, Stem Zero by Nude is the

best crystal I have used. The combination of refinement and durability make Stem Zero perfect for a high quality restaurant like Mana.

Everyone of our guests has a wine pairing and frequently comment on the glass and enquire about its origin and availability.

For me, every wine tastes better in Stem Zero"

Mana, Michelin Star 2019 since 2019

# beer glasses

A wide selection of beer glasses covering stemware, tumblers and tankards suitable for all types of beers and environments. Our range includes fine quality crystal glasses through to unique, fully toughened beer shapes such as Malmo, Bob, Nevis and Draft.

## TOUGHENED GLASSES

Fully Toughened glassware has been strengthened across its entire body making the glass resistant to impact damage at all points. When Toughened glass does break, it will break into small fragments making it impossible to cause serious lacerations.

## ACTIVATOR MAX

Activator Max involves enhanced nucleation of the glass. This is the etching of the bottom of the glass and is designed to increase the effervescence of the product and maintain the head of the drink, as well as improving the appearance of beverages when served.

# toughened glass

The hectic hospitality environment means glassware needs to withstand wear and tear while still adding style. Our unrivalled range of toughened glassware includes a wide range of tumblers, stemware and exclusive shapes.

When toughened glass finally does break it will break into small fragments making it the obvious choice for outlets following license stipulations or those seeking to prevent glass related violence.

Our featured ranges:  
**Moda Toughened Gin P 383**  
**Montez Cocktail P 385**  
**Malmö P 396**

Our exclusive Beer Collections:  
**Bob & Nevis P 394**  
**Aspen P 395**

# TOUGHENED GLASSWARE

---

Fully toughened glassware has been strengthened across its entire body making the glass resistant to damage at all points. This makes the glass stronger than regular annealed glass. When toughened glass does break it will break into small fragments making it impossible to cause serious lacerations. Increased durability reduces replenishment, saving money.

Toughened glass is treated by using extreme heat and then cooling rapidly which balances the tension stored in the glass core.

The glass tension makes the glass strong and much more resistant to a mechanical and thermal shock.

Tension gives safe break characteristics, meaning once broken no shards or sharp edges are left

Toughening is across the whole glass, including the stem for safety

# 06 green earth

BY THE YEAR 2050, UNLESS WE ACT NOW THERE  
WILL BE MORE PLASTIC THAN FISH IN THE SEA.

Single use plastics are a frivolous reason to add to the global pollution problem, we need to focus on improving the way we consume and serve to make it as environmentally friendly as possible.

Included in this section are  
the following:

Straws

Stirrers

Skewers

Microparticles of plastics are being absorbed by fish that are then eaten by humans

The amount of plastic generated globally is estimated to be nearly 6.3 billion tonnes

Plastic can take up to 500 years to decompose

INNOVATION HAS ALWAYS BEEN AT THE CORE OF UTOPIA'S OFFERING, AND AS WE HAVE SEEN AND BEEN PART OF THE WAVE OF THE MOVEMENT TOWARDS ECO-FRIENDLY ALTERNATIVES TO SINGLE USE ITEMS WE SAW A FIT FOR WHAT WE CAN OFFER.

Straws and stirrers when in plastic were seen as a bland commodity, adding little value to the serve and even less to the environment, but with other materials there is the opportunity to differentiate and add value to the serve through the patterns, colour and variations that can be achieved.

Our range is focused on bringing the best product into the market, meeting all the environmental needs whilst giving our customers a way to create innovative serves through our extensive range of straws, skewers and stirrers.

#### WHAT ARE WE DOING TO HELP?

AFTER MONTHS OF CONSULTATIONS OUR RANGE OF PAPER STRAWS HAVE NOW RECEIVED: EN13432:2000 ACCREDITATION

This certification specifically focuses on compostability making sure Utopia's non metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment. In other words they actually give something back to the earth when their useful life is over.

ALL OUR WOODEN STIRRERS AND PAPERS HAVE BEEN FSC SOURCED

## PRODUCT TESTING

We believe in testing all our products to our own as well as industry standards. This is to make sure all our products are best in the market for how and why they are used.

### Paper straws are tested against:

- Liquid absorption of different acidities and sugars
- Strength and diameter testing
- Durability with contact to varying liquids
- Ink leakage into liquid after set periods of time

We strive to make sure that our straws that enter the market match the level of quality we expect from all Utopia products.

## ACTIONS WE HAVE TAKEN

For our paper and wood products, it is key that they are compostable, biodegradable and food safe, without this they are not fulfilling the need to be environmentally friendly and improve the position from single-use plastics. We rigorously test our products to make sure they adhere to these requirements.

For paper to be environmentally friendly it needs to adhere to the Forest Stewardship Council certification, which gives customers the option to choose forest products like paper and wood that have been sourced in an environmentally-friendly, socially responsible and economically viable manner. FSC was founded in 1993 in response to concerns about deforestation. All our wooden stirrers and paper straws have been FSC sourced.

After months of consultations our range of paper straws have now received EN13432:2000 accreditation. This certification specifically focuses on compostability, making sure Utopia's non-metallic paper straws adhere to strict standards concerning biodegrading so they only have a positive impact on the environment. In other words they actually give something back to the earth when their useful life is over.

### Biodegradability...

is a material's capacity to be converted into carbon dioxide (CO<sub>2</sub>) through the action of micro-organisms, under the same process occurring in natural waste.

- Disintegrability, namely fragmentation and invisibility in the final compost (absence of visual contamination).
- Absence of negative effects on the composting process.
- Almost complete absence of heavy metals and the absence of negative effects on compost quality

### Compostability...

is the capacity of an organic material to be transformed into compost through the composting process. This process exploits the biodegradability of the initial organic materials to transform them into a finished product called compost. This allows for the waste to add back to the planet rather than detract from it.

# PAPER STRAWS

All 8" Paper Straws have a bore of 6mm

 Box of 1

# 09 care advice & information

The first taste is with your eyes! So to make sure you get the best return from the products you select for your outlet, we have included advice on care and usage to make sure that longevity in service and appearance is enhanced. This will make sure you receive the maximum benefit from your investment in Tableware.

# CERAMICS

---

## Storing:

Placing rubber or plastic mats on large stainless steel surfaces usually found in industrial kitchens can help reduce metal marking to ceramics.

Rubber or plastic mats can also be placed in stacking areas, trolleys or sinks to further reduce the chance of metal marking.

Replace or repair any plastic coated racks that may have become worn and the metal underneath exposed, as this again could cause damage to your ceramics.

## Using:

Don't scrape off leftovers – wipe off with a paper towel or a plastic/rubber scraper.

Utopia ceramics are suitable for microwave use, however be advised that any decorated item that includes metal will not be microwave safe.

Use cutlery that is of a high grade steel as a minimum requirement, as some cutlery in use today is made from low grade steel, which being soft in nature increases the chance of metal marking.

Using metal utensils against ceramics can also cause metal marking, try to keep this to a minimum or use plastic utensils.

## Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses.

To ensure the quality level of the product it is important to take note of the following:

Strictly follow recommended dishwashing procedures set out by the manufacturer and use the correct dose application of the detergent.

The use of an approved detergent is recommended.

For effective cleaning, we recommend that the dishwashing temperature and the final rinse be set between 55 to 60°C. Operating at higher temperature levels in order to wash crockery 'properly' is a definite case of overkill and detrimental to all tableware.

Repair or replace any plastic coated metal in the dishwasher that may have worn away as this may result in metal marking.

Stack ceramics separately to other crockery in the dishwasher such as cutlery or pans and ensure items do not vibrate against each other during the cycle.

Overdosing on detergent or using excessively high temperatures will cause deterioration to the glazed finish or damage any decoration on the product.

## Metal Marking

Metal marking occurs when a ceramic item comes into contact with metal surfaces or utensils, which can cause metal tracing to be left on the ceramic item due to certain types of steel being softer than the glaze of the ceramic.

Despite the unsightly appearance of metal marking, it is not a cause for concern as it can be easily removed by the application of a gentle household non-abrasive cleaner.

# MELAMINE

---

The correct handling and care of your Melamine buffet and tableware will enhance the appearance and longevity of the product in use. The following guide will assist you.

Handle melamine dinnerware like any quality dinnerware.

Use only plastic pads or plastic type bristle to remove dried food.

Pre-soak melamine products, if necessary, in a high quality pre-soak dishwashing detergent.

Do not use melamine products in an oven.

Do not use melamine products in a microwave.

Do not use harsh or abrasive cleaners, steel wool, or metal scouring pads.

Do not use chlorine bleach.

Melamine is a thermosetting plastic that is strong, lightweight and hard with the look and feel of ceramic product. It is highly break and scratch resistant, but it is NOT 100% unbreakable, it can be scratched and broken.

Melamine is often used for dinnerware, mixing bowls and laminated counter tops because it resists acids, alkalis and most food stains.

Melamine is hard and smooth and can withstand some fairly warm temperatures, but it does absorb heat and will soften if it gets too hot. While melamine is perfectly safe when it comes in contact with warm temperatures, melamine is not microwavable.

In general, melamine products are not designed to withstand temperatures that exceed 100°C and should not be submerged in boiling water or placed in the oven.

Also, be sure to avoid exposure to hot objects or prolonged exposure to boiling water. Melamine is suitable for use over a bain-marie as the water is circa 70°C, to hold food above a temperature of 60°C.

Melamine is dishwasher safe (as long as the water temperature does not exceed the 100°C guidelines). Scouring powder should not be used, as it will scratch the surface, also never use chlorine bleach on melamine buffetware.

Stainless Steel, though its name suggests otherwise, it is not completely 'mark proof'. It is much more resistant to staining or marking than other metals however contact with certain substances will start the process that leads to staining and pitting. Simple measure to reduce this and help maintain the quality of your cutlery:

### Storing:

Never store cutlery where it can become damp, as this can cause corrosion.

Store out of direct heat, as this can cause the metal to mark.

Never leave cutlery with food on as many corrosive substances are found in food, such as acids, like vinegar and lemon juice, mineral salts found in tap water, fats and meat juices.

Other corrosive substances are bleach and harsh detergents, so ensure your cutlery is not left to soak.

### Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic dishwashing found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

When pre-rinsing cutlery ensure all food debris is removed before being washed.

Follow the manufacturer's instructions, particularly in relation to adding dishwasher salt as excess salt can cause corrosion.

Always wash cutlery immediately, never leaving it with food debris present.

It is advisable to place cutlery vertically into dishwashers with the head up; and not too tightly packed together, this assists the water flow at the end of the cycle.

Remove cutlery immediately after washing/dry cycle is finished and wipe over with a dry towel. If the cutlery is left to cool in the dishwasher, trace mineral salts and the dishwasher salt residue will settle on the cutlery in the moist atmosphere and start the pitting and staining process.

Never mix stainless steel and silver plated cutlery in the same basket of the dishwasher the chemical reaction between detergent and steel can cause the silver plate to mark.

Do not use the rinse and hold cycle on dishwashers with cutlery this will leave the cutlery to soak in water which can be damaging.

Wood handled cutlery is not suitable for cleaning in a dishwasher.

For PVD coated cutlery such as Gold extra care should be taken when washing.

### Types of Metal – What is Stainless Steel?

Choosing the right type of cutlery for what you need it for can be confusing, Utopia have tried to simplify this by splitting the ranges into different types of stainless steel 18/10 and 18/0. These ranges can be further identified through the colour coded collections.

Stainless Steel is an iron and chromium alloy containing more than 11% chromium. There are three types of stainless steel used to make cutlery:

**18/10** – This is used for contemporary cutlery except knives; it contains 16-18% Chromium and 8-10% Nickel. This is the only steel that can guarantee against corrosion when properly cared for:

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
304	18/10 or 18/8	16–18%	8–10%	3%	29–33%	Iron

**18/0** – This steel is used for value cutlery e.g. Parish, Economy or some value options of Contemporary cutlery. Due to the high % of chromium, it is more resistant than 13/10 but not as resistant as 18/10.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
430	18/0	16–18%	-	2	18-20%	Iron

**13/0 or Knife Steel** – This steel is used to make knives, as it can be hardened to create a sharp edge. The quality used is AISI 420, containing 12-14% chromium. This is the least corrosion resistant form of stainless steel.

AISI Code	Generic	Chrome	Nickel	Others	Subtotal	Balance
420	Knife Steel	12–14%	-	2	14-16%	Iron

# GLASSWARE

## Storing:

Do not put cutlery into glasses.

Do not stack glasses that have not been designed to stack.

## Using:

Do not pick up glasses in clusters.

Be careful to avoid contact with the beer tap.

Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks.

Pre-heat glasses for hot drinks by running them under the hot tap.

## Washing:

Utopia's products are specially designed to withstand the rigours of the Foodservice and Hospitality trade, including automatic glass washers found widely in most businesses. To ensure the quality level of the product it is important to take note of the following:

Always wash new glasses before use.

Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass and give the glass a shadowy tinge.

Water on the premises should be stored at 60°C. If water is stored at a higher temperature e.g. 85°C, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass.

Coffee cups should never be washed in a glass washing machine, as coffee dregs can taint the water and stain the glasses – this also applies to drinks that contain cream.

If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.

Gold decorated glassware is suitable for handwash only.

## Information:

See below for a guide to replacement seals for our Preserve and Terrine collections.

Item Code	Item Description	Replacement Seal Code

# PLASTIC BARWARE

Improved working practices for the use of Polycarbonates will extend the life of the product:

- Polycarbonate drink ware is supplied with the verified CA Mark or Lined and Stamped exactly like Glassware.
- Polycarbonate Barware is dishwasher safe to a temperature of 60°C.
- When using glass washers, it has been suggested that the use of detergent without rinse aid is preferred.
- To maintain the product in its best condition, it is recommended that a low temperature wash cycle below 60°C for both wash and rinse temperature is used. The combination of detergents and raised temperatures can lead to environmental stress cracking in the plastic surface. If washer temperatures are above this then it is recommended to hand wash the plastic barware.
- It is important to make sure that the Polycarbonates are not rubbing together during the rinse cycle in a glass washer.
- It is safe to use Liquid Renovate. This will enhance the visual presentation of the product where needed.
- Regular checking of Polycarbonates to assess scratching is needed so as to offer the customer a perfect drink.
- It is important that Polycarbonates are not stacked tightly together as the inside of the product will scratch.
- Polycarbonates are quite often found on the floor and on hard floors they will scratch. Where possible Polycarbonates should not be left on the floor.
- Polycarbonate is a tough transparent thermoplastic that has many applications, which demand high performance properties.

Polycarbonate drink ware is almost indestructible, hard and

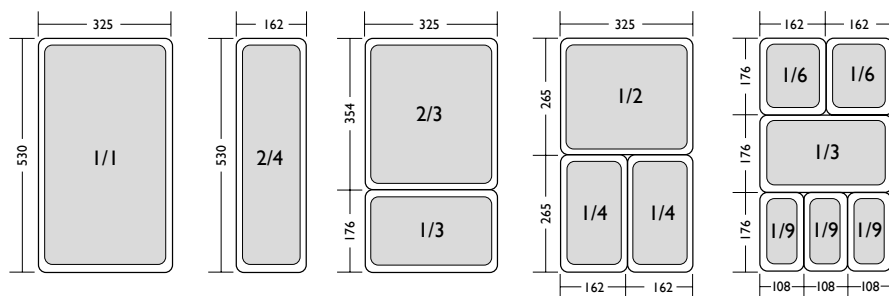

rigid and in many cases virtually identical to glass. It is the preferred product for Police Forces and Local Licensing Authorities where drink related violence is an area of concern.

Although the product is virtually unbreakable it is subject to considerable wear and tear; unlike glass, which would simply break and then be replaced, regular checking of polycarbonates to assess scratching is needed as to offer the customer a perfect drink.

Utopia Tableware supply Plastic Barware in four different types of plastic:

- Polystyrene – our plastics shots are Polystyrene, these are dishwasher safe up to 100 washes.
- SAN (Styreneacrylonitrile) is stronger than Polystyrene and can take a high amount of usage but will break under heavy pressure. This product is glass washer proof.
- Polycarbonate – is a very strong and virtually unbreakable plastic, the strongest plastic of all. Our polycarbonate glassware is glass washer safe up to 500 washes.
- MMS – is a transparent copolymerization primarily composed of methyl methacrylate (MMA) and styrene monomer (SM). This is glass washer safe up to 100 washes.

## Gastronorm sizing guide:

Food pans available in standard Gastronorm sizes.

# CREATIVE TABLE

---

Creative Table includes an array of products all of which require different care to ensure you keep them at their best. See below for information on how to look after your Creative Table products.

## **Estrella Traditional Terracotta:**

- Suitable for traditional ovens, hobs, microwaves & freezers.
- Terracotta is naturally fragile and should be handled with care.
- Terracotta is naturally porous, soaking in water should be avoided
- Terracotta is suitable as oven to tableware.

## **Fuji:** (as above)

- However, with increased strength and durability

## **Copper Presentation Serveware:**

- Please be aware copper will naturally oxidise over time.
- To maintain an optimum finish, hand washing is recommended.
- Using metal scourers or abrasive cleaners will affect the finish of your copper serve ware, to avoid this, wash in hot water straight after use with a soft cleaning sponge.

## **Stainless Steel Presentation Items/Barware:**

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves.
- Galvanised items should always be used with presentation papers.
- Never leave in a damp environment for prolonged periods of time.

## **Wire Baskets & Presentation Papers:**

- Not suitable for cooking and should be used as presentation only.
- Suitable for dishwashers
- Not suitable for ovens or microwaves
- Presentation papers are 100% biodegradable and can be discarded in food waste.

## **Slate/Granite:**

- Being natural stones – our slate and granite items may vary slightly in size and texture.
- The characteristics of slate are that the edges can naturally chip and create sharp points – care must be taken when handling these items.
- To clean wipe down with a damp cloth and mild detergent.
- For Slate – any scratches can be treated with natural oil and this should be followed from time to time to keep the product looking its best.

## **Cast Iron:**

- Cast Iron is ideal for use in the oven and on stoves and withstands temperatures up to 260°C.
- Always use heat protective wear when handling the products – handles will become extremely hot.
- Never place hot items directly onto unprotected surfaces – it is recommended to use the Acacia Wooden Boards that are available with all Utopia Cast Iron pieces.
- For care of the Cast Iron Wooden Boards – follow the Acacia Wooden Board/Tray' care advice.
- Always use Plastic/Wooden utensils – metal may damage the surface of the enamel.
- Abrasive scourers may also damage the enamel surface – to remove tough residue soak in hot soapy water.
- Ensure completely dry before storing or stacking.

## **Bento Boxes:**

- Not suitable for dishwashers, hand wash only.
- Not suitable for oven or microwave use.
- Abrasive scourers may damage the surface of the item – use a soft sponge and soak in hot soapy water for tougher residue.

## **Natural Woods:**

- Store away from direct heat sources and direct sunlight.
- Hand wash in warm soapy water
- Do not soak in water
- Dry immediately
- Not dishwasher safe
- Bamboo drink paddles are suitable for glass washers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Sourced from a sustainable wood source
- Darwin, Acacia, Olive and Fir Wood will vary significantly in size and shape as these are natural cuts of wood.
- Restore Natural Woods with a wiping of olive oil.

## **Enamel:**

- Oven proof and Dishwasher safe
- For best results, after use soak in warm water; then wash gently with a liquid detergent
- Do not use abrasive cleaning pads or powders
- Items will chip if handled roughly

---

**Trays:**

- Plastic Black Non-Slip Trays:
- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Not suitable for dishwashers – wipe down with a clean damp cloth after each use.
- Do not leave submerged in water.
- Do not stack whilst damp.
- Do not overload trays, may cause accidental damage or injury.

**Fast Food Trays:**

- Always ensure trays are stacked on flat surfaces to eliminate accidental damage.
- Fast Food Trays are suitable for dishwashers – always follow the recommended dishwashing procedures outlined by the manufacturer and use the correct dose application of detergent.
- Fast Food Trays have stacking lugs to accelerate drying and can therefore be stacked straight after washing without prior drying.
- Surface can become slippery when wet, extra caution needed.
- Always stack separately to other crockery in the dishwasher to ensure items do not damage each other in the cycle.
